I am from Iran in the artesh (Different from IRGC) as a سرباز دوم Sarbaz dovom (Private second class), and the leaks from the other day caused quite a buzz, my colleague told me about them, and they're being taken real seriously here in Iran, although I'm not a officer so I don't have access to all the information but I do know the Air defenses and all units specially intelligence are on high alert because of the leaks. Who knows what might happen, I hope the zionists scum just scrap their plans because of the leaks, but even if they don't we in Iran

stand strong and we'll fight to death is Satanyahu tries anything that mad. Thank you to whoever leaked those documents in America, you're on the right side of history. If it wasnt for you we might have not known Israeli Plans. الله اكبر خميني رهبر

>Greater Iran

The ancient Iranian peoples who emerged after the 1st millennium BC include the Alans, the Bactrians, the Dahae, the Khwarazmians, the Massagetae, the Medes, the Parthians, the Persians, the Sagartians, the Saka, the Sarmatians, the Scythians, the Sogdians, and likely the Cimmerians, among other Iranian-speaking peoples of West Asia, Central Asia, Eastern Europe, and the Eastern Steppe.

Modern Iranian peoples include the Baloch, the Gilaks, the Kurds, the Lurs, the Mazanderanis, the Ossetians, the Pamiris, the Pashtuns, the Persians, the Tats, the Tajiks, the Talysh, the Wakhis, the Yaghnobis, and the Zazas. Their current distribution spreads across the Iranian Plateau – stretching from the Caucasus in the north to the Persian Gulf in the south and from eastern Anatolia in the west to western Xinjiang in the east – covering a region that is sometimes called Greater Iran, representing the extent of the Iranian-speaking peoples and the reach of their geopolitical and cultural influence.

Richard Nelson Frye defines Greater Iran as including "much of the Caucasus, Iraq, Afghanistan, Pakistan and Central Asia, with cultural influences extending to China and western India."

According to him, "Iran means all lands and peoples where Iranian languages were and are spoken, and where in the past, multi-faceted Iranian cultures existed."

"Since the days of the Achaemenids, the Iranians had the protection of geography. But high mountains and the vast emptiness of the Iranian plateau were no longer enough to shield Iran from the Russian army or British navy. Both literally, and figuratively, Iran shrank. At the beginning of the nineteenth century, Azerbaijan, Armenia, and Afghanistan were Iranian, but by the end of the century, all this territory had been lost as a result of European military action."

To the Ancient Greeks, Greater Iran ended at the Indus River located in Pakistan.

Primary sources, including Timurid historian Mir Khwand, define Iranshahr (Greater Iran) as extending from the Euphrates to the Oxus

According to Bernard Lewis:

"Iran was indeed Islamized, but it was not Arabized. Persians remained Persians. And after an interval of silence, Iran re-emerged as a separate, different and distinctive element within Islam, eventually adding a new element even to Islam itself.

Culturally, politically, and most remarkable of all even religiously, the Iranian contribution to this new Islamic civilization is of immense importance. The work of Iranians can be seen in every field of cultural endeavor, including Arabic poetry, to which poets of Iranian origin composing their poems in Arabic made a very significant contribution.

In a sense, Iranian Islam is a second advent of Islam itself, a new Islam sometimes referred to as Islam-i Ajam. It was this Persian Islam, rather than the original Arab Islam, that was brought to new areas and new peoples: to the Turks, first in Central Asia and then in the Middle East in the country which came to be called Turkey, and of course to India.

The Ottoman Turks brought a form of Iranian civilization to the walls of Vienna."

This is interview of a Harvard professor Dr. Richard Nelson Frye on CNN. Opening 40 seconds.

"Well I spent all my life working in Iran. And as you know I don't mean the Iran of today, I mean Greater Iran."

"The Iran which in the past extended all the way from China to the borders of Hungary and from Outer Mongolia to Mesopotamia."

"This is the area in which [Iranian]culture, craft, and everything was dominant. "

The IDF were shitting their diapers about it but the feds who illegally spy on us are claiming it's fake. My initial inclination was that it was a brinkmanship document intended to bring you to the negotiating table but it's obvious Israel wants to continue their Greater Israel jewhad at all costs.

<https://archived.moe/bant/thread/22232048/#q22232048>
<https://archive.4plebs.org/pol/thread/498873146/#q498876094>

You should know that our SECDEF and President are illegal unregistered foreign agents of Israel who have both been substantially financed by the interloper parasite foreign agent Adelson family. The Adelsons, who have transparently corrupted and bought off Trump and Pete Hegseth, flew the worst spy in American history Johnathan Pollard home to Israel on their private jet. They also leaned on Trump and got him to pardon the handler of Johnathan Pollard. Trump says he's America First but he's an Israeli Agent who is also betraying our country.

The Trump regime represents an open takeover of the US government by loud and proud unregistered foreign agents of Israel, sayanim.

As immoral, self-interested opportunists, they're not giving up control of America to some third-rate goy developer. What you're looking at isn't a removal of the Deep State. It's making sure the Deep State is 100% Jew-controlled from top to bottom. That's why you aren't seeing any resistance. Biden was also receiving money from the Mayor of Moscow and Hunter got a billion dollars from China.

Our government is corrupt. What we describe as corruption in other countries we describe as "lobbying" in the US. Our politicians are prostitutes with *zero* allegiance to our country who are selling out our country to the highest bidder. Think of the ROI on giving Rubio a million dollars and then him giving Israel 4 billion dollars in return.

Kash Patel, the alien Jew FBI director foisted upon us, his wife works for PragerU, whose CEO is unit 8200. Our country is openly controlled by Israel and it's illegal unregistered foreign agents.

I see fren - you are either incredibly smart or incredibly stupid. In either case I don't see an alternative to this plan but whoever executes it should perhaps not let ((them)) know about it lol. I more or less came to the same realization as you recently and perhaps this transition is a path to salvation for usa. I'm not sure the Trump admin is actually doing this but there are definitely some indicators that is what is happening. I've not been very optimistic about USA for a long time but now at least maybe it can come out of this as a

less buck broken UK.

It's mostly Syria. Hamas and Hezbollah have already more members than before the war. And even than the Houthis and the PMF are stronger than ever. Syria and Assad never amounted to anything to begin with. The war in Gaza with all the atrocities committed there has all Arab states more distant and critical towards Israel than ever. If Israel becomes less aggressive and somehow manages to mount massive air defense capabilities and massively fortifies its border they have a chance to stick around for another 30-50 years. If not the horizon approaches more quickly.

Jews like all people are temporal and dont care about the distant future

Trump cares about dismantling the federal agencies because they tried to assassinate him multiple times
Imao

I dont think trump cares about this, its a biproduct of his personal hatred of the federal agencies, and Israel's wellness to allow him to dismantle them

Israel needs trumps unconditional support in the preset with the war so they let him do what he wnats, and trump uses this support to fight his domestic enemies

The end result is the destruction of teh control mechanisms, that isnt the goal, its just an accidental biproduct

The hatred of the agencies is real and legitimate in many of the cabinet members like Kash patel which is why they specifically hate him

What leverage does Trump have over the Jews that they would give him the privilege of dismantling

Jewish power? What leverage do they lack over him that doesn't force him to obey whatever they say? What does he gain from disobeying them? If feds can take out POTUS, what makes you think Jews can't? They already have once when they had much less power.

In agencies like the CIA and it's subservients it's much much worse. The organizations are made to be unaccountable by design (like u said earlier). Those employees have far bigger incentives to do treasonous things and historically none of them have faced anything.

Just random examples - Iraq was plundered on made up bullshit but the worst that happened to anyone in the govt. was some soldiers who did hijinks at abu graib and got held up as the baddies.

I hope that Trump goes after the CIA and other executive dept. - with the FBI we do get sort of a freebie. I don't know how it will go with the others. Hopefully they piss him off.

no all centralized federal power should be abolished, it should be pushed to the states, so instead of having to control say the FBI director, you have to control all 50 chief law enforcement directors for each state

The decentralized the system becomes, the more people you need to control to manipulate it and harder this beomes logsitically

Controlling a single federal law enforcement agency (The FBI) is alot eaiser than controlling 100 across 50 states

You make centralized control impossible then no one can do it

By abolishing the FBI and moving to the states, you make this bare minimum, 50x harder to accomplish given teh new number of people that must be jointly controlled

Like what are you even saying? It's impossible to get fifty different agencies to coordinate? As long as the policies are made by the same group of people, why would it matter?

You're also saying the entire point of this exercise is to defend Israel. How would making the FBI ineffective help Israel? What's more likely is that he'll get rid of dissidents and push in loyalists? Which he's literally done throughout his life in everything he's done.

No it is literally not possible without america having infinite money and resources and these agencies having infinite accountable budgets

I don't give a shit about the feds. I want to understand why you're ignoring the Jewish question. You can set up any system you want, and there will always be some way you can take it over. Trump was put into power for one thing and one thing only, which is war with Iran. That's going to be his entire legacy.

That's why he's going soft on China. That's why he's compromising with Russia. That's why he's forcing manufacturing back home. That's why he's keeping Europe busy with security issues. That's why he's cutting back on government spending. That's why he's purging the military and federal agencies of any potential dissent.

If you think he cares in the slightest about the distribution of power across the various levels of government in the US, you're delusional.

There's one thing that got him his wealth, there's one thing that got him his power, and there's one thing that will let him keep both, and that's doing whatever his Jew bosses tell him to do.

That's why his favorite daughter is married to a Jew. If the Deep State were anything other than Jews, he'd have gotten Ivanka married to someone else. He knows who has all the power in America, and he's perfectly fine with it as long as he can play leader.

These are our greatest allies goyim. We should bankrupt our country, import unlimited aliens to replace ourselves, and die in whatever war they tell us to fight in.

There is really nothing new in the document, so it's unremarkable. Israel is going to time their strike ahead of the budget vote in our congress because they have corrupted and control our government. So they can get all of the pork rammed through on the basis of "defending Israel." They destroy our country domestically then our country pays to create their country. Then we have to import more aliens to pay off the debt that we have amassed creating Greater Israel FOR THEM.

The trannies are a part of their religion and culture. They are the source of the trannies. We didn't draw their name out of a hat. They are doing what people say they are doing.
